

Everyone has born with an empty space.

Because of the sinful nature of humanity, everyone is born with an empty space in the middle of their soul. As people grow up and experience adverse circumstances in life, the empty space gets larger and more difficult to fill. So naturally everyone tries to fill that empty space with coping attitudes. Some may do negative things like practicing obsessions that become addictions. For example, some may escape into alcoholic addiction, sexual deviancy, violent behavior, and live with low self esteem. Others may try to fill that space with positive things like intellectual search, material gain, philanthropy, false religions, physical perfection or popularity. Regardless of the road people may take to fill that space, emptiness will always be present. For example: if beauty fills emptiness, what happened to Marylyn Monroe? If popularity fills emptiness what happened to Elvis Presley? If money fills emptiness what happened to Howard Hughes. If religion fills emptiness, what happen to Jim Jones? How about famous people of today like Paris Hilton, Brittany Spears or Nichole Richey?

As you can tell no matter what we try in our own, nothing or nobody can fulfill that empty space like the Lord Jesus Christ. A personal relationship with him fills that empty space once and for all. He promised us His Holy Spirit to be an agent of his infilling. Therefore, don't think about it any longer, come as you are to Him, confess Him as your Lord and Savior and begin an everlasting relationship with Him today.

Ephesians 5:19

Todos nacen con un vacío.
